

I'm Their Leader (Yet I Cannot Lead!)

PROGRAM DESCRIPTION

Objective: Inspire each person to own up to their reluctance to be vulnerable, act human, and lead through heart-felt connection. When the technical expert can do that, they gain respect, loyalty, and cooperation.

Summary: This program gives the leader the ability to transform into a leader worth following, because they understand the Human Equation™. (S)he will begin to master the ability of fostering relationships based on empathy, trust, and mutual respect.

Organizations tend to promote the most technically qualified person into a leadership role, and this expert often fails because (s)he does not understand how to relate or connect with those whom they lead.

Keynote: Understanding the Human Equation™ of Leadership Will Gain You Respect

2-hour: Want Healthy Relationships with Those You Manage? Don't Be Yourself!

4-hour: How to Be a Leader that Everyone Wants to Follow! A High Road® Solution

WHY MY PRESENTATION IS EFFECTIVE

A presentation is a waste of time if the attendee does not get an 'A-HA' moment or cannot use the information.

- I facilitate a learning process where, from the beginning, attendees formulate solutions for their issues.
- The attendee gets real-life solutions instead of theories and understands the WHY before we go into the HOW.
- The tools and solutions I share are proven effective because they work for me, my clients, and my teams.
- The attendee learns faster and retains the information longer because it is anchored with stories, humor, creative learning techniques including reinforcement and visual cues.
- By the end of the program, the attendee has written an individualized action plan for improvement.

PROGRAM FORMATS

Keynote: An overview of the problem and suggested solutions.

2-hours: A briefing on the issue and creation of one viable solution.

4-hours: A hands-on problem solving session.

To customize material for your audience, Ron uses his Sparkplug™ Research Process.
